Phase 22: Business Analyst Artifact Library & Governance Hub

Document Code: ART-HUB-001

Project: Duplicate Bin Ecosystem

Purpose: Central Directory and Index of All Formal BA Deliverables

1. Master Deliverable Inventory

Every artifact in this library is reverse-engineered directly from the verified code, architecture, and tests of the **Duplicate Bin** repository.

2. Artifact Mapping to Delivery Lifecycle

Lifecycle Phase	Core Artifacts	Primary Stakeholders	Governance Standard
Initiation & Strategy	Business Case, Project Inventory, Stakeholder Analysis	Executive Sponsor, Business Owner	PMI / BABOK v3
Requirements Discovery	Requirements Catalog, Process Flows, Gap Analysis	Product Owner, End Users	IEEE 830 / ISO 29148
Functional Specification	BRD, FRD, PRD, User Stories, Use Cases	Software Architects, Engineering Leads	Agile Scrum / User Stories
Technical Design Bridge	API Business Analysis, Data Dictionary, ERD	Backend & Frontend Developers	RESTful OpenAPI / UML
Verification & Testing	UAT Plan, UAT Test Cases, Traceability	QA Engineers, Business Users	ISTQB / UAT Standards

	Cases, Traceability		

Lifecycle Phase	Core Artifacts	Primary Stakeholders	Governance Standard
	Matrix (RTM)		
Governance & Change	Change Request Log, Decision Log, Risk Register	Change Control Board (CCB)	ISO 31000 / ADR
Audit & Interview Readiness	Metrics Audit, Resume Claim Audit, Case Study	Interview Evaluation Panels	Empirical Fact Auditing
