Master Business Analyst Interview Preparation Index

Project Analyzed: Duplicate Bin (`DuplicateBin`)

Repository Root: `c:\Users\mustafa\Desktop\duplicate-bin`

Toolkit Directory: `c:\Users\mustafa\Desktop\duplicate-bin\BA_INTERVIEW_PREPARATION\`

Author: Senior Technical Business Analyst / Product Owner Specialist

Standard: 100% Reverse-Engineered from Actual Codebase & Tests — Zero Speculation

Master Navigation & Document Tree

Click on any document below to review the complete, interview-ready documentation:

1. Strategy, Inventory & Business Problem

- **Phase 1: Project Inventory & Tech Baseline**

  01_PROJECT_INVENTORY.md

  Complete discovery of architecture, 30 advanced features, tech stack, and limitations.

- **Phase 2: Business Case & Strategic Problem Definition**

  02_BUSINESS_CASE.md

  Quantified business problem (15-35% storage sprawl), cost of inaction, and financial ROI.

- **Phase 3: Stakeholder Analysis & Elicitation Guides**

  03_STAKEHOLDER_ANALYSIS.md | STAKEHOLDER_INTERVIEW_QUESTIONS.md

  Mendelow power-interest grid, RACI matrix, and stakeholder discovery questionnaires.

2. Business Processes, Requirements & Specifications

- **Phase 4: Business Process Analysis & Workflows**

  04_PROCESS_ANALYSIS.md

  As-Is manual chaos vs To-Be automated hybrid desktop/SaaS flows and Gap Analysis.

- **Phase 5: Comprehensive Requirements Catalog**

  05_REQUIREMENTS_CATALOG.md

  24 formal IEEE requirements categorized by BR, FR, NFR, DR, INT, and SEC.

- **Phase 6: Business Requirements Document (BRD)**

  BRD.md

  Executive business problem, measurable objectives, scope boundaries, and sign-off matrix.

- **Phase 7: Functional Requirements Document (FRD)**

  FRD.md

  Detailed algorithmic specifications for two-pass pre-filtering, Union-Find, and Gherkin criteria.

- **Phase 8: Product Requirements Document (PRD)**

  PRD.md

  Product vision, user personas, MoSCoW backlog prioritization, and release strategy.

- **Phase 9: Agile User Stories & Acceptance Criteria**

  USER_STORIES.md

  11 vertical user stories across 5 epics with Gherkin acceptance criteria.

- **Phase 10: Use Cases & Operational Scenarios**

  USE_CASES.md

  Alistair Cockburn formal use cases and Mermaid UML use case map.

- **Phase 11: Business & Technical Process Flows**

  PROCESS_FLOWS.md

  5 end-to-end Mermaid sequence and flowchart diagrams detailing multi-pass scanning and WebSockets.

3. Technical Bridge: APIs, Data & System Architecture

- **Phase 12: API Business Analysis**

  API_BUSINESS_ANALYSIS.md

  11 REST endpoints & 2 WebSocket relays explained from business meaning to technical implementation.

- **Phase 13: Data Architecture & Dictionary**

  DATA_ANALYSIS.md | DATA_DICTIONARY.md

  Entity Relationship Diagram (ERD), cloud relational schema, SQLite cache schema, and field-level dictionary.

- **Phase 16: Business Rules Catalog**

  BUSINESS_RULES.md

  8 formal business rules including Master File Preservation, OS Root Protection, and Code Expiration.

4. Metrics, Credibility & Risk Governance

- **Phase 14: Comprehensive KPI & Metric Audit**

  METRICS_AUDIT.md

  Empirical audit of benchmark numbers: 87.21% time reduction, 18.7s scan time, memory bounding.

- **Phase 15: Resume Claim & Credibility Audit**

  15_RESUME_CLAIM_AUDIT.md

  Green/Yellow/Red classification auditing numerical statements and providing truthful phrasing.

- **Phase 20: Risk Register (ISO 31000)**

  RISK_REGISTER.md

  Project-identified risks (path traversal, symlink attacks) and BA-recommended mitigations.

- **Phase 19: Change, Decision & Assumption Logs**

  CHANGE_REQUEST_LOG.md | ASSUMPTION_LOG.md | DECISION_LOG.md

  CCB change procedure, assumption validation, and Architecture Decision Records (ADR 001-006).

5. Verification, Traceability & Quality Assurance

- **Phase 17: User Acceptance Testing (UAT)**

  UAT_PLAN.md | UAT_TEST_CASES.md

  BA role in UAT, entry/exit criteria, and 10 detailed executed business test cases with 100% pass rate.

- **Phase 18: Requirement Traceability Matrix (RTM)**

  RTM.md

  Bidirectional matrix linking all 24 formal requirements through unit tests and UAT sign-off.

6. Domain-Specific Case Studies

- **Case Study 1: Enterprise NAS & Shared Storage Optimization**

  ENTERPRISE_NAS_STORAGE_CASE_STUDY.md

  150-person architectural firm reclaiming 9.2 TB to avoid an $18,500 NAS expansion.

- **Case Study 2: Prosumer Media Asset Governance & Quality Heuristics**

  PROSUMER_MEDIA_DEDUPLICATION_CASE_STUDY.md

- PROSUMER_MEDIA_DEDUPLICATION_CASE_STUDY.md

  Commercial photography studio preserving RAW negatives while culling JPEG duplicates.

- ☁️ **Case Study 3: Hybrid SaaS Fleet Management & Pay-As-You-Go Monetization**

  HYBRID_SAAS_FLEET_MONETIZATION_CASE_STUDY.md

  Distributed marketing agency monitoring 40 remote laptops via 6-digit pairing and credit packs.

7. Interview Mastery & Defense Toolkit

- 💼 **Phase 21: End-to-End BA Case Study**

  CASE_STUDY.md

  Complete, interview-ready narrative of the Duplicate Bin initiative.

- 🎯 **Phase 24: Comprehensive Interview Question Bank (Levels 1-13)**

  INTERVIEW_PREPARATION.md

  Exhaustive questions from resume screening to challenging cross-examination.

- 🛠️ **Phase 25: "How Did You Create It?" Methodology Guide**

  HOW_DID_YOU_CREATE_IT.md

  Deep-dive explanations of how you authored BRDs, FRDs, RTM, User Stories, and process flows.

- 🔗 **Phase 26: The "Why Chain" (5-Level Cross-Examination)**

  WHY_CHAIN.md

  5-level deep questioning on 87% time reduction, zero data loss, and hybrid SaaS design.

- 🌓 **Phase 27: Project Defense & Pitch Scripts (30s, 1m, 3m, 5m)**

  PROJECT_DEFENSE.md

  Timed pitch scripts and tough interview defense questions.

- ⭐ **Phase 28: Behavioral Interview Mastery (STAR Stories)**

  STAR_ANSWERS.md

  Behavioral STAR responses based on real algorithmic bugs, memory bounds, and scope triage.

- 💻 **Phase 29: Technical BA Interview Question Bank**

  TECHNICAL_BA_QUESTIONS.md

  SQL, SQLite WAL, FastAPI, WebSockets, Python, Qt, Postman, and Security hardening.

- 📄 **Phase 30: BRD vs FRD vs PRD vs SRS Training Guide**

  DOCUMENTATION_INTERVIEW_GUIDE.md

  Mastering the differences, audiences, lifecycles, and interview questions for core BA documents.

- ⚡ **Phase 31: Final Interview Quick-Recall Cheat Sheet**

  FINAL_INTERVIEW_CHEATSHEET.md

  2-minute rapid-fire reference card covering all core numbers, algorithms, and models.

- ⚖️ **Phase 32: Credibility Audit & Statement Defense Ledger**

  CREDIBILITY_AUDIT.md

  Pre-interview audit of claims ensuring 100% truthful, defensible statements.

- 📋 **Phase 34: Final Business Analyst Audit Report**

  FINAL_BA_AUDIT_REPORT.md

  Comprehensive final evaluation and skills matrix report.
