Enterprise BA Artifact Library & Asset Catalog — WariMitra

Document Identifier: WM-LIB-022

Classification: Project Documentation Asset Inventory

Standard: BABOK v3 Knowledge Areas & Work Product Repository

Target Audience: Hiring Managers, Interview Evaluation Committees, Senior Business Analysts

1. Inventory of Project BA Artifacts

Every artifact in this repository has been reverse-engineered from verified codebase evidence, configuration files, and architectural designs:

Artifact Code	Document Title	File Location	Primary BABOK v3 Knowledge Area	Business & Technical Purpose
ART-01	Project Inventory & Architectural Baseline	`01_PROJECT_INVENTORY/01_PROJECT_INVENTORY.md`	Solution Architecture & Context	Complete technical stack, module inventory, cloud infrastructure, and verified limitations.
ART-02	Business Case & Needs Assessment	`02_BUSINESS_CASE/02_BUSINESS_CASE.md`	Strategy Analysis	Detailed problem statement, As-Is pain points, target beneficiaries, SMART objectives, and ROI.
ART-03	Stakeholder Analysis & RACI Matrix	`03_STAKEHOLDER_ANALYSIS/03_STAKEHOLDER_ANALYSIS.md`	Stakeholder Engagement	Power/Interest grid, 7 detailed user profiles, pain points, and cross-functional RACI matrix.
ART-04	Stakeholder	`03_STAKEHOLDER_A`	Elicitation &	Realistic interview

	Stakeholder	`03_STAKEHOLDER_A`	Elicitation &	Realistic interview

Artifact Code	Document Title	File Location	Primary BABOK v3 Knowledge Area	Business & Technical Purpose
	Elicitation Guide	`NALYSIS/ STAKEHOLDER_INTE RVIEW_QUESTIONS. md`	Collaboration	scripts for rural pilgrims, police chiefs, medical officers, and district collectors.
ART-05	Business Process Analysis & Gap Matrix	`04_PROCESS_ANALY SIS/ 04_PROCESS_ANALY SIS.md`	Requirements Analysis & Design	BPMN workflows, As-Is manual chaos vs To-Be automated dispatch, and comprehensive gap engineering.
ART-06	Comprehensive Requirements Catalog	`05_REQUIREMENTS/ 05_REQUIREMENTS_ CATALOG.md`	Requirements Lifecycle Management	Categorized taxonomy: BR, FR, NFR, SEC, INT, DR, REP with unique IDs and acceptance criteria.
ART-07	Business Requirements Document (BRD)	`06_BRD/BRD.md`	Business Analysis Planning	Formal corporate BRD with executive summary, scope boundaries, governance sign-offs, and KPIs.
ART-08	Functional Requirements Document (FRD)	`07_FRD/FRD.md`	Solution Evaluation	Exhaustive functional specifications with preconditions, main flows, exception paths, and Gherkin

Artifact Code	Document Title	File Location	Primary BABOK v3 Knowledge Area	Business & Technical Purpose
				paths, and Gherkin criteria.
ART-09	Product Requirements Document (PRD)	`08_PRD/PRD.md`	Product Management	Product vision, target personas, MoSCoW prioritization with rationale, and phased release strategy.
ART-10	Agile User Stories & Gherkin Suite	`09_USER_STORIES/USER_STORIES.md`	Agile Delivery	Formatted user stories (`As a... I want... So that...`) across 6 epics with INVEST compliance.
ART-11	Formal Use Case Specifications	`10_USE_CASES/USE_CASES.md`	Requirements Analysis & Design	Cockburn-style formal use cases with UML system boundary diagrams and exception handling.
ART-12	Business Process Flows (Mermaid)	`11_PROCESS_FLOWS/PROCESS_FLOWS.md`	Process Modeling	Sequence and flowchart diagrams mapping the end-to-end lifecycle of emergency, medical, and crowd workflows.
ART-13	API Business	`12_API_ANALYSIS/API_BUSINESS_ANA`	Technical Business	Business meaning

	API Business	`API_BUSINESS_ANA`	Technical Business	Business meaning

Artifact Code	Document Title	File Location	Primary BABOK v3 Knowledge Area	Business & Technical Purpose
	Analysis & Contracts	`LYSIS.md`	Analysis	first, followed by technical payload schemas, error contracts, and security audits.
ART-14	Data Architecture & ER Modeling	`13_DATA_ANALYSIS/DATA_ANALYSIS.md`	Data Modeling	NoSQL document modeling, Geohash spatial index patterns, aggregation singletons, and Mermaid ERD.
ART-15	Comprehensive Data Dictionary	`13_DATA_ANALYSIS/DATA_DICTIONARY.md`	Data Governance	Field-level catalog defining physical types, nullability, constraints, defaults, and business descriptions.
ART-16	KPI & Quantitative Metric Audit	`14_METRICS_AUDIT/METRICS_AUDIT.md`	Solution Evaluation	Mathematical formulas, empirical benchmarks (1.2s p95, 320ms read), and claim classification.
ART-17	Resume Claim & Credibility Audit	`15_RESUME_CLAIM_AUDIT/15_RESUME_CLAIM_AUDIT.md`	Professional Ethics & Defense	Green/Yellow/Red evidence mapping and bullet-proof phrasing guidelines for interview

Artifact Code	Document Title	File Location	Primary BABOK v3 Knowledge Area	Business & Technical Purpose
				for interview candidates.
ART-18	Enterprise Business Rules Catalog	`16_BUSINESS_RULES/BUSINESS_RULES.md`	Business Rules Governance	SBVR-compliant business policies covering idempotency, rate limiting, geofencing, and security constraints.
ART-19	User Acceptance Testing (UAT) Plan	`17_UAT/UAT_PLAN.md`	Quality Assurance & Acceptance	BA role in UAT, testing scope across 5 tracks, entry/exit criteria, and defect triage SLAs.
ART-20	UAT Test Cases & Execution Scripts	`17_UAT/UAT_TEST_CASES.md`	Acceptance Testing	12 detailed acceptance test cases with preconditions, test data, steps, actual results, and sign-offs.
ART-21	Bidirectional Requirements Traceability (RTM)	`18_RTM/RTM.md`	Requirements Traceability	CMMI Level 3 matrix mapping requirements through user stories, source code, SIT, and UAT.
ART-22	Change Request Log & Decision	`19_CHANGE_MANAGEMENT/`	Requirements Life Cycle	Change control intake log,

	Log & Decision Records			intake log, assumption register, and architectural decision records (ADRs).
ART-23	Risk Register & Threat Matrix	`20_RISK_ANALYSIS/RISK_REGISTER.md`	Risk Analysis & Management	5×5 probability/impact matrix separating codebase-identified risks from BA-recommended mitigations.
ART-24	Comprehensive BA Case Study	`21_BA_CASE_STUDY/CASE_STUDY.md`	Portfolio Presentation	Complete STAR-structured case study synthesized for executive hiring panels and technical interviewers.
